### **LEADING SMEs OF INDIA: FUELING THE SPIRIT OF UDYAMI BHARAT**

SMEs are the backbone of the Indian economy, contributing ~30% to GDP, one-third of India's manufacturing output, employs over 120 million people and account for nearly half of India's total exports. Notably, women owned MSMEs are a powerful force, comprising 21% of all MSMEs and generating 19% of total employment. Additionally, MSMEs are rapidly embracing digitalization, with 72% of transactions now occurring online and 43% actively involved in e-commerce.

As a long-standing knowledge partner to Indian companies, Dun & Bradstreet has been working closely with MSMEs supporting them through multiple channels such as research, policy advocacy, credit enablement, capacity building, engagement, networking, and awards. Dun & Bradstreet has also partnered with SME enablement and support institution such as SIDBI, ECGC, ONDC, SMERA and NSIC.

In line with our ethos, Dun & Bradstreet is pleased to launch the 15th edition of its premier publication, 'Leading SMEs of India 2024'. It summarizes the vibrant pulse and diverse landscape of the industry and provides a comprehensive insight of the industry's unique dynamics, trends, and challenges. The edition also lists 5,800+ SMEs across multiple categories shortlisted based on D&B's proprietary methodology, considering financials and operational performance of the company.

These leading companies have exhibited impressive financial performance. The aggregate topline growth for these companies stands at ~60% in FY23, twice as compared to Nifty SME EMERGE Index in the same period. Remarkably, 40% of companies achieved exceptional top-line growth exceeding 30% for FY23. Even over a two-year timeframe (FY23 compared to FY21), ~25% of companies have shown a top-line CAGR growth of more than 30%. This financial strength reflects the resurgence of optimism among MSMEs, further emphasized by the 17% year-on-year increase in business confidence reported by the D&B - ASSOCHAM Small Business Confidence Index in Q2 2024.

The theme of this year's edition, 'Fueling the Spirit of Udyami Bharat,' underscores the critical role of MSMEs in propelling India towards developed nation status by 2047. Strengthening the MSME sector is crucial for nurturing an enterprising India and achieving robust, resilient, and inclusive economic growth. The ambitious Udyami Bharat program, built on the four pillars of Entrepreneurship, Prosperity, Modernization, and Self-reliance, aligns perfectly with this vision.

I believe this latest publication from Dun & Bradstreet will serve as an indispensable resource to enhance your business acumen and gain valuable insights to achieve higher growth. I look forward to receiving your valuable feedback and suggestions.

# Don't Wait to Automate! \$10,000

Free Data & Al Services!

On behalf of G7 CR Technologies - a Noventiq company, I would like to congratulate Dun & Bradstreet for the 15th edition of its annual SME publication - Leading SMEs of India 2024, and the 5th edition of its Mid-Corporate publication - Leading Mid-Corporates of India 2024. We are thrilled to partner with Dun & Bradstreet for these significant publications.

The MSME sector in India has shown incredible resilience and adaptability, playing a pivotal role in contributing to the country's GDP. The sector has been making a vital contribution to economic growth and stability, especially in the post-pandemic era.

At G7 CR Technologies, we recognize the transformative power of emerging technologies such as Data and AI in driving business growth and efficiency. As a premier provider of managed services, we are committed to empowering MSMEs with innovative data and AI solutions that enhance decision-making, optimize operations, and improve customer experiences. In line with the Atmanirbhar Bharat initiative, G7 CR is proud to offer \$10,000 worth of data and AI implementation services to MSMEs in India. This initiative aims to support MSMEs in their digital transformation journeys, providing them with the tools and expertise needed to thrive in an increasingly digital world.

Our suite of data and AI services is designed to address the unique challenges faced by MSMEs, providing them with actionable insights and automated solutions to streamline their operations. By leveraging our expertise, businesses can unlock new opportunities, reduce costs, and stay competitive in an increasingly digital world.

We have proudly supported numerous MSMEs in their digital transformation journeys, enabling them to harness the power of data and AI to achieve remarkable outcomes. From enhancing supply chain efficiency to personalizing customer interactions, our solutions have made a significant impact across various industries. Additionally, our commitment extends beyond just providing services. We actively engage in knowledge sharing and capacity building through workshops, webinars, and collaborative projects. This holistic approach ensures that MSMEs not only implement cutting-edge technology but also gain the necessary skills and understanding to maximize its potential and sustain growth over the long term.

Looking ahead, we are dedicated to continuously evolving our offerings to meet the ever-changing needs of MSMEs. Our goal is to drive economic growth through technological innovation, ensuring that businesses of all sizes can thrive in the digital age. Once again, congratulations to Dun & Bradstreet on this publication. We are honored to be part of this journey and look forward to contributing to the success of MSMEs across India.

# **EXPERTS' VIEW**

### Mr. Deepak Singh

**Managing Director** G7 CR Technologies India Pvt. Ltd.

### What are some of the key milestones of the company in recent years?

G7 CR Technologies India Pvt Ltd - a Noventiq company has established itself as a leading Managed Service Provider for Microsoft, earning the prestigious status of Azure Expert Partner and winning the Microsoft Country Partner Award in 2019 & 2020. Over the past couple of years G7CR has achieved Microsoft's advanced specialization designation in application and data modernization, infrastructure and database migration, Analytics, Data and AI implementation, Application development on Microsoft Azure and Kubernetes on Azure. With over 1800 clients served globally and 500+ cloud deployments, these milestones highlight our dedication to providing cutting-edge solutions and services.

### What are some of the key products / services offered by the company?

G7 CR Technologies offers comprehensive end-to-end service offerings on Microsoft Azure. Our

services encompass everything from initial consultation and strategy to full-scale implementation and ongoing support. We specialize in cloud migration, application development, Data and AI implementation, infrastructure optimization, and managed services, ensuring that our clients can fully leverage the power of Azure to drive their business forward. Our expertise includes providing costeffective hosting models, increasing deployment speed, and reducing overall cloud expenditure.

### What are some of the innovative initiatives taken by your company in recent years? How have those initiatives helped your organization?

In recent years, G7 CR Technologies has introduced several innovative initiatives to enhance our service offerings and client engagement. One such initiative is the AI Playground, which provides handson experience with various Al use cases, enabling our clients to explore and experiment with AI technologies in a practical setting. Additionally, as part of our AI for All initiative, we offer a USD 10,000 credit for data and AI design and implementation. These initiatives have not only expanded our service capabilities but also empowered our

clients to harness the full potential of AI and data-driven insights. With G7 CR 2.0, we've introduced an innovative customer experience strategy. Our Unified Customer Experience Strategy bridges the gap between customer expectations and bottlenecks of traditional customer support strategy, offering personalized experience and driving business growth.

### What are your key strategic priorities for customers and stakeholders to drive long-term growth?

Our key strategic priorities are centered around leveraging Data & Al for informed decision-making and promoting AI for All. By integrating advanced data analytics and AI solutions into our service offerings, we enable our customers and stakeholders to make smarter, datadriven decisions. Our commitment to making AI accessible to all ensures that businesses of all sizes can benefit from the transformative power of AI, driving long-term growth and innovation. Additionally, at G7 CR, we believe that customer experience is not just a service, but a journey. With our Unified Customer Experience (UCX) strategy, we have prioritized customer experience, empowering our team to deliver exceptional service, enhance

customer satisfaction, and drive business growth.

Data breaches and downtime can be devastating for businesses. How does G7CR approach cloud security and ensure business continuity for its clients?

G7 CR Technologies takes a comprehensive approach to cloud security to mitigate the risks associated with data breaches and downtime. Our strategy begins with robust infrastructure security, including data encryption both in transit and at rest, strong access controls, and regular vulnerability assessments. We adhere to industry best practices and standards such as ISO 27001 to ensure the integrity and confidentiality of client data. In terms of business continuity, we implement stringent disaster recovery plans and conduct regular backups to minimize downtime in case of unexpected events.

Sustainability is becoming increasingly important for businesses. How does G7CR integrate sustainable practices into its cloud solutions and client services?

At G7 CR Technologies, sustainability is a core principle embedded in our cloud solutions and client services. We prioritize energy-efficient data centers and leverage virtualization technologies to optimize resource usage and minimize environmental impact. By reducing energy consumption and carbon emissions associated with

traditional IT infrastructures, we help our clients achieve their sustainability goals while enhancing operational efficiency and cost-effectiveness. Additionally, we advocate for sustainable practices throughout our supply chain and partner ecosystem.

Technology is constantly evolving. What emerging trends do you see shaping the IT landscape in the coming years, and how is G7CR gearing for them?

In the IT landscape, G7 CR Technologies anticipates several emerging trends that will shape the future of technology solutions. These include:

Artificial Intelligence (AI): Aldriven automation and predictive analytics are set to transform business operations. These technologies enable smarter decision-making, optimize processes, and enhance customer experiences by providing personalized solutions and insights.

### Data-Driven Decision Making:

The increasing importance of data analytics means businesses will rely more on advanced data processing techniques to derive actionable insights. Big Data and AI will function together to uncover patterns, trends, and correlations that drive strategic decisions and business growth.

To prepare for these trends, we invest in cutting-edge technologies

and continuously improve our workforce.

India has a vast and diverse IT landscape. How does G7CR cater to the specific needs and regulations of the Indian market in terms of cloud solutions?

G7 CR Technologies understands the unique challenges and opportunities presented by the Indian IT landscape, characterized by diverse industries and regulatory requirements. We offer tailored cloud solutions that address the specific needs of Indian businesses, including data sovereignty concerns and compliance with local regulations such as the Personal Data Protection Bill (PDPB). Our localized approach includes data residency options, ensuring that sensitive data remains within Indian borders to comply with regulatory mandates. We collaborate closely with regulatory bodies and industry associations to stay informed about evolving compliance requirements and incorporate them into our service offerings.

### Mr. Chetan Jain **Managing Director** Inspira Enterprise India Limited

### What are some of the key milestones of the company in recent years?

Inspira Enterprise has been a significant player in cybersecurity and data analytics services since 2008. The organization has expanded its footprint in the UAE, Saudi Arabia, and Oman in recent years. Operating globally across more than 10 countries, Inspira maintains five strategically positioned Cyber Fusion Centers (CFCs) with Dubai and Manila CFCs launched newly. The organization has forged strategic alliances with industry leaders such as IBM, Palo Alto, Microsoft, Fortinet, Saviynt, and others.

Recently, it was named a Leader in the IDC MarketScape for Worldwide Emerging MDR Services 2024 and a Major Player in the IDC MarketScape for Worldwide Cybersecurity Risk Management Services 2023, among several other accolades.

### What are some of the key products / services offered by the company?

Inspira's cybersecurity services are very extensive ranging from basic perimeter security to complex

# inspira

incident management and response. They include Cyber Security Services, Data Analytics Services, Digital Transformation, Cloud and Infrastructure Security Services, and Remote Infrastructure Services.

### How is your company supporting digitalization drive of Indian MSMEs and large corporates?

Inspira Enterprise is improving and strengthening the Security Infrastructure of MSMEs and large corporates by,

### Streamlining security management

It streamlines security management by eliminating the need to navigate a complex array of point solutions. It provides a unified approach through its partner networks, seamlessly integrating top cybersecurity tools and solutions.

### Delivering business outcome-based security services

It delivers business outcome-based security services by leveraging industry-leading expertise across all areas of IT infrastructure and cybersecurity. Inspira incorporates best practices and extensive experience from multiple fields, offering renowned consulting and proven trusted solutions.

### Boosting cyber resiliency

Cyber resiliency is boosted by creating greater threat visibility, easier management, and faster

remediation of threats. Inspira also advises on risk and cyber strategy, data privacy and protection, business continuity and resilience, and security architecture and engineering.

### What are some of the innovative initiatives taken by your company in recent years? How have those initiatives helped your organization?

Inspira's recently launched Cyber Fusion Centers (CFCs) in Manila and Dallas are equipped to not only detect, respond, and remediate incidents in near real-time, but also provide intelligence-based analysis which helps prevent future cyber security threats. Innovative solutions are co-created with clients and partners to meet unique requirements.

Inspira is now developing a native MDR platform, iMDR, which is slated for release to clients this year. This platform will feature advanced detection and hunting capabilities, along with a GenAl-enabled dashboard integrated into the iSMART2 customer portal.

Additionally, Inspira is expanding its service portfolio with innovative solutions like deception as a service and IT-OT converged Security Operations Centers (SOCs).

# hitech& Your Partner in Digital Excellence

# Mr. Pranit Banthia Founder and CEO

Hi-Tech Digital Solutions LLP

### What are some of the key products/ services offered by the company?

HitechDigital, with 1,200 employees, provides engineering and digital solutions globally, leveraging three decades of industry experience. Our services include Data Solutions, Integrated Industrial and Product Engineering, Building Information Modeling, Aeronavigation, and Business Process Management. Clients include Fortune 500 companies and leaders in Aerospace, Technology, Manufacturing, AEC, Real Estate, and Ecommerce.

For 8 consecutive years, CRISIL, an S&P company, has awarded HitechDigital its highest rating (SME1) for financial and operational strength.

# What are the major people management and engagement activities of the company?

Our people are our greatest assets, and we foster a supportive, growthoriented work environment through engagement, empowerment, and wellbeing initiatives. Job rotation, enrichment, upskilling, and cross-training programs offer job satisfaction and career growth. Over 50% of our senior leadership team has risen from within.

Our management practices, culture, and flexible work arrangements ensure low attrition and high engagement. Over 31% of our employees have been with us for over five years, and senior leaders average over 12 years of tenure. Hitech encourages a collaborative culture with cross-functional team involvement in policy formulation, decision-making, surveys, and feedback mechanisms. Our Rewards & Recognition program celebrates performance excellence with various awards and incentives.

We prioritize health and wellbeing through initiatives such as health profile cards, expert lectures, yoga, aerobics, dance, physiotherapy, and CPR training. HitechDigital has earned a 4-star employee satisfaction rating on Glassdoor and a 4.1 score on Ambition Box.

# What has been the success mantra for your company?

People and customer-centricity are central to Hitech's success.

Our people-first policies have consistently earned us 4+ ratings for company culture in internal surveys over the past three years.

We focus on delivering excellent customer experiences through

personalized onboarding, structured workflows, rigorous quality audits, ongoing project updates, detailed metrics tracking, and continuous process improvement. This approach results in 95% repeat customers and a consistently high Customer Service Index of 4+. Our top 10 clients have been with us for over 10 years.

# What are your key strategic priorities for driving long-term growth?

Digitalization is the key to driving our vision for strategic growth. We have intensified our efforts to leverage digital technologies to enhance operational efficiencies, reimagine processes, and drive excellence. As a shift in our business model, we are transitioning from providing services to delivering innovative products and solutions to address specific client challenges.

Additionally, we prioritize streamlining internal operations using proprietary tools and technology accelerators, mastering automation, and forming strategic technology alliances to accelerate growth.

Our aim is to build long-term client partnerships by seamlessly integrating into their core processes, driving excellence, establishing a strong onsite presence, and creating sustained value.

Mr. Ajit Vaze CEO & MD AARAV Fragrances & Flavors Pvt. Ltd.

### How would you describe the journey of your company since its inception?

AARAV's story begins during a tumultuous period from 2005 to 2010, when the Vaze-Kelkar family business split into three groups. The company was registered in 2007 but became fully functional in FY 2011-12. We set up our fragrance production unit on a 28-acre plot in Jamghar, Wada, acquired office space in Thane, and started a perfumery school. By FY 2012-13, we began flavor division operations.

Between FY 2011-12 and 2017-18, AARAV grew significantly, expanding from 7 to 130 employees, building a strong reputation, and crossing the ₹ 100 crore sales milestone. However, the following three years were challenging. In FY 2018-19, our largest customer began producing its own fragrances, and the next year, global supply cost escalations impacted profitability. COVID further affected us over the next two years!

Despite these challenges, we reinvented ourselves, focusing on being customer-centric and performance-oriented.

In 2017-18, we launched the Ingredients initiative, starting with a research and pilot plant facility at Pawane and adding a small production unit. By H2 FY 2021-22, the Ingredients division began commercial activities, doubling annually since. We established a new ingredients plant at Wada, operational in H2 FY 2023-24 to meet increasing demand.

Today, AARAV is one of the largest Indian Fragrance and Flavor Houses, with sales in FY 2023-24 more than doubled from the COVID era, CAGR of over 30%, and a healthy EBIDTA of 22%.

### What are some of the key milestones of the company in recent years?

- AARAV's compounding divisions (Fragrance and Flavors) achieved an important milestone when the share of traditional business (Incense, tobacco etc) dropped to below 45% with remarkable growth in new sectors (Fine Fragrance, Air care, Fabric care, Personal care, Home care) and new customers (Corporate, D2B, semi corporate)
- New technologies introduced via newer in-house ingredients, IT systems for fragrance design,

- applications science, amongst others, coupled with its strong creative base have carried the company over a competitive threshold in the marketplace in many new and exciting sectors
- Robust growth and high degree of acceptance of product quality and pricing amongst international clients have made the Ingredients division into a growth engine of AARAV with sales doubling annually.

### How is the company gearing towards "Atmanirbharta"?

AARAV is gearing towards Atmanirbharta in two specific ways

#### Internally

- Enabling organizational learning by arranging knowledge transfer from global experts in the field
- Enhancing sourcing relations with Indian producers by technology transfer and expert guidance to enable them to manufacture in India

### Externally

- Manufacturing specialty, high value products that can substitute imports, for sale within the country
- Exporting "Made in India" specialty products that are being exported to more than 20 countries

### Mr. Hewa D Chaminda

Managing Director
Asiatic Electrical &
Switchgear Private Limited

# How would you describe the journey of your company since its inception?

Since its inception in 1972, Asiatic has carved a niche in the switchgear market, specializing in LV/MV products. Acquired by M/s LTL Holdings Pvt. Ltd., a major Sri Lankan engineering conglomerate, the company has ambitious plans for growth. Asiatic is approved by major utilities worldwide and exports to the Middle East, Africa, SAARC, and beyond. Certified to ISO 9001, ISO 14001, and ISO 45001, Asiatic recently ventured into solar arena with two IPP projects in Rajasthan. The company thrives on customer satisfaction, driven by teamwork, dedication, and a commitment to energy-efficient solutions.

# What are the Key Milestones for Asiatic Electrical & Switchgear?

**1972:** Began manufacturing LV cutouts and panels.

**1975-1985:** First exports to Kuwait, Bahrain, and Oman.

**1986-1995:** Secured global utility approvals & developed LV products.

**1997:** ISO 9001 certification for the first time.

. . . . .

1998: Entered the African market,

securing approvals in Kenya and Tanzania.

**2000:** Recognized as an export house.

2002: Entered the Sri Lankan market.

**2004-2005:** Introduced silicone rubber MV products in India.

**2006:** Transitioned to a Private Limited company.

**2007:** Started manufacturing 11-36 kV VCB panels, got OEM of ABB India.

**2014:** Secured approval in Kahramaa Oatar.

2016: Acquired by LTL Holdings

**2019:** Supplied LV panels for a prestigious power project in Bangladesh.

**2024:** Bagged two solar IPP projects in Rajasthan.

# What are company's initiatives to drive sustainability practices for business operations?

Asiatic drives sustainability through several key initiatives:

- 1. Renewable Energy: Entered the solar sector with two 8 MW IPP projects in Rajasthan and plans rooftop solar generation to reduce carbon footprints.
- **2. Resource Conservation:** Practices rainwater harvesting and uses clean fuels like PNG.
- Pollution Prevention: Implements measures to prevent soil and water pollution through ETP plants.
- Energy-Efficient Products:
   Designs and manufactures products that reduce energy consumption and environmental impact.

- 5. ISO Certifications: Holds ISO 9001, 14001, and 45001 certifications for environmental and safety quality standards.
- Global Standards Compliance: Products meet IS/IEC/RDSO/ CPEI-India/KEMA-Holland/KERI-Korea standards.
- Continuous Improvement: Invests in R&D for better products and operational efficiencies.

What are some of the innovative initiatives taken by your company in recent years?

Asiatic has driven growth and enhanced market positioning through several initiatives:

- 1. Country-Specific Products:

  Developed tailored products
  for various countries, ensuring
  stability and growth.
- Compliance to National/ International Standards: Ensured products meet IEC/IS/ BS standards, increasing global market penetration.
- 3. Expanded Product Range:
  Expanded product range with 11 kV and 36 kV VCBs, enhancing industry partnerships.
- 4. Strategic Acquisition by LTL Holdings Pvt. Ltd: Improved efficiencies and market reach through synergies with LTL Holdings Pvt Ltd.
- **5. Solar Projects:** Entered the solar sector with two 8 MW IPP projects in Rajasthan.
- **6. SAP B1 Implementation:**Streamlined operations and improved efficiency with SAP B1.

### Mr. Suunil Dabral

Senior Vice President & Business Head Godrej Koerber Supply Chain Ltd.

# How would you describe the company's joint venture journey in India?

### Your reliable partner for End-to-End supply chain solutions

Godrej Körber Supply Chain Limited, a joint venture between Indian giant Godrej & Boyce and German leader Körber AG, provides intralogistics automation solutions. We offer European technology manufactured locally, catering to industries like pharmaceuticals, food & beverages, and automobiles. India's warehousing market is booming, projected to reach ₹ 2,028.86 billion by 2025. E-commerce and government initiatives to strengthen manufacturing are driving this growth. Recognizing this, Godrej Körber leverages its expertise and partnership with Körber AG to introduce cutting-edge warehousing technologies. Presently, we have solidified our presence in the market, showcasing a robust resurgence supported by a compelling "Value Proposition" underpinned by German technology and the "Make In India" initiative championed by our esteemed Prime Minister, Mr. Narendra Modi.

# What are company's major product offering?

We at Godrej Körber, are leaders in warehouse automation, offering a complete solution suite. This includes stacker cranes, conveyor systems, and software like Warehouse Management Systems (WMS) to optimize warehouse operations. Our solutions eliminate manual handling with AS/RS and autonomous robots, while ensuring efficient movement within warehouses through conveyors. This comprehensive approach, combining technology and expertise, aims to streamline supply chains across industries in India, boosting efficiency and cost savings for businesses.

### How does your organization leverage on innovative supply chain & logistics solutions to drive operational efficiency among Indian enterprises?

We offer comprehensive solutions to elevate Indian businesses' operational efficiency. We combine technology, partnerships, and customized services to tackle complex global supply chain challenges. Our strong foothold & innovative automation, software, and robotics solutions empower over 150 projects in India. The modern supply chain faces a dynamic environment with economic shifts, regional tensions, and environmental

factors hindering smooth operations. We tailor solutions for companies of varying sizes and strategies, helping them navigate complexity and drive innovation. By integrating software, automation, voice, mail, and robotics solutions, we empower clients with business intelligence and agility. This allows them to adapt to changing environments and foster innovation. The rise of automation in manufacturing highlights the need for efficient material handling systems. Our automated solutions streamline operations, ensuring efficient production and warehouse management.

# What are company's initiatives to drive sustainability practices for business operations?

At Godrej Körber, we prioritize sustainability, aiming to minimize environmental impact and contribute positively. Our "House of Sustainability" framework reflects this commitment. It incorporates ESG aspects into all their activities. The framework outlines focus areas with subtopics, ensuring a comprehensive approach. We have recently incorporated human rights risk management and sustainable product development. By understanding stakeholder concerns through open communication, we strive for continuous improvement in sustainability.

# BRIZO ODELTA

### Mr. Ravi Nindwani

Managing Director (India, Asia and Gulf Region) Delta Faucet Company India Pvt. Ltd.

# How would you describe the journey of your company since its inception?

It's been a tough, special journey of a late entrant with limited resources wherein we had to make sharp choices to build a profitable brand even as a lean op.

# What are some of the key products / services offered by the company?

Delta Faucet offers two of its four brands in India. The flagship premium brand Delta offers robustly engineered faucets, showers, and accessories in trendy designs and in a wide range of finishes. The luxury brand Brizo is for those discerning customers who like fashion to permeate their entire lifestyle.

# What are company's initiatives to drive sustainability practices for business operations?

We are a company well known for meaningful innovations with water that genuinely deliver to the goal of a sustainable future for the planet. Some of these are H2Okinetic Technology, ShieldSpray Technology, Touch2O Technology (which save water by as much as 30%) and surface innovations like Lumicoat Finishes which prevent use of chemicals. Beyond product innovation, Delta Faucet Company has also ensured complete recyclability of brass, transfer of fully treated water from our manufacturing facilities to the city for consumer use and a sharp focus on recyclable packaging.

# What are some of the innovative initiatives taken by your company in recent years? How have those initiatives helped your organization?

In the recent years, we have been focused on developing India specific products for discerning consumers and designers, which deliver unique water experiences and at the same time delightfully surprise the customer with unique designs, crafted details and better ergonomics. We have also devoted a lot of energy and resources to expansion into Tier 2 and Tier 3 cities and today we are a steadily growing, profitable company.

# What are your key strategic priorities for customers and stakeholders to drive long term growth?

Brand development and development of our people are our top priorities now to drive long-term growth.

### Mr. Syed Tahir Husain

**Managing Director** Ruhrpumpen India Private Limited

### How would you describe the journey of your company since its inception?

Ruhrpumpen India Pvt Ltd was incorporated in 2009, with commercial operations commencing in 2012 from a hired facility in Ponneri, North of Chennai. Our aim was to serve the growing Indian market and consolidate operations in the Middle East and Southeast Asia. In 2014, I had the honour of joining Ruhrpumpen India and developing a comprehensive roadmap that led to tremendous growth. By 2017, our promoters showed their confidence in us by investing in our own plant in Chennai. In just five years, we achieved a turnover of \$42 million, and this momentum continues as we now aim for \$100 million. In 2024, we proudly set up our second plant, marking another milestone in our journey.

### What are some of the key products / services offered by the company?

We are a leading manufacturer of pump systems around the globe for design, manufacture, sales and service of pumping technology from oil production, to chemical transfer,

from water distribution systems to food processing with the most demanding quality standards and industry specifications such as: API, ANSI, Hydraulic Institute, UL, FM and ISO.

### How does your organization leverage on innovative supply chain & logistics solutions to drive operational efficiency?

Improving supply chain and logistics efficiency is crucial for businesses to stay competitive in today's fast-paced environment in Ruhrpumpen we do Implementing real-time tracking technologies allows companies to monitor shipments, inventory. Also by analyzing historical data we anticipate demand fluctuations, optimize inventory levels, and make informed decisions. Predictive analytics helps prevent stockouts and excess inventory. We do warehouse and inventory management, transportation management, global trade management, real-time decision support, supply chain visibility, and order management systems. Our Goal is smooth operation and customer satisfaction.

### What are company's initiatives to drive sustainability practices for business operations?

Customers are increasingly inclined to support businesses that actively

prioritize sustainability. The adoption of environmentally responsible practices is not only a conscientious move for the planet but also a strategic approach to enhancing a company's brand image and attracting eco-conscious consumers. Ruhrpumpen is implementing eco-friendly packaging solutions to reducing carbon footprints in the supply chain, businesses can make substantial strides toward sustainability. Also, we are incorporating renewable energy sources, minimizing waste generation, and embracing ethical sourcing practices contribute not only to environmental preservation but also to building a positive brand reputation. Energy conservation measures, such as adopting energyefficient technologies and practices, not only reduce environmental impact but also trim down our utility bills by using Variable frequency drives for testing, optimizing lighting systems, and investing in energyefficient equipment like energy efficient electric motors and drives.

### What is your company's growth strategy for next 3-5 years?

Ruhrpumpen India Pvt. Ltd focusing to become center of excellence among the group company and sales wise targeting to reach 100MUSD.

# Mr. Pratik Jajodia Managing Director Tirupati Reels Private Limited

# What are some of the key milestones of the company in recent years?

Tirupati Reels boasts of being Southeast Asia's most modern, largest, and fully Automatic Wooden Reels Manufacturing Unit. The automation journey began in 2016 where we started with a moderate capacity of 80,000 reels a year whereas now, we were producing about 250,000 reels every year. Starting 2024 we have added another manufacturing facility which over the next 4 years will gradually produce 600,000 reels every year taking our total capacity to around 850,000 reels. We are the largest consumers in India for softwood under a single roof already. Our revenue for FY 2023-24 was around 150 Crores, now targeted to grow at a CAGR of 30% over the next 5 years.

# What are some of the key products / services offered by the company?

Our key products are Pinewood Reels, Pallets, Boxes, Cold Storage Bins currently. All products are used by various manufacturing organizations for packing their products. We also aim to start

a business vertical for transit packaging which will help our existing and new customers to safely pack their products through our domain expertise and resolute teams, thus eradicating chances of product damages during course of transportation. This will be a strategic move in our endeavor to achieve the expected growth levels.

### How does your organization leverage on innovative supply chain & logistics solutions to drive operational efficiency?

Our products are the epicenter of the logistical requirements of most organizations. It is imperative for us to provide the best design of our products through our well experienced R&D Team, at right prices to form an effective solution. We provide onsite & off-site inventory management solutions to our customers to provide Just-In-Time deliveries with Technology thus ensuring our customers achieve maximum efficiency in their core operations without worrying about allied services & products. We are the only FSC certified company for Wooden Reels in India to ensure sustainable solution for listed B2B customers to maintain prominent level of ESG compliance by using FSC certified raw materials in our products. To provide all this it is quintessential that we are always working with massive amounts of

data through our digital initiatives, which has become the core requirement of each department in our organization. We have also initiated a "Project Parivartan" which aims at achieving an organization level change in mindset of everyone towards goal & growth with 100% digitization with a target date of 1st October 2025

# What is your company's growth strategy for next 3-5 years?

Our company aims to grow at about 30% CAGR over the next 7 years with the addition of capacities of the existing product line while adding new verticals. This growth will help to add value to our stakeholders who have believed in our capability to do something that has never been done in India, growth in values of our team members who are striving hard to achieve the common growth goals of the company and most certainly our customers who will keep getting products from us centric to our core mantra

### "QQD"

Quality - To get the right quality product.

Quantity - To get the product in desired quantities.

Delivery - To get the products delivered at the right time.

Mr. Nitesh Gupta **Managing Director** Vinir Engineering Private Limited

### How would you describe the journey of your company since its inception?

Vinir Forge (Engineering) Pvt Ltd: A Legacy of Innovation, Excellence, Strategic Growth and Expansion Our journey began in 1984 as a small, first-generation company with a clear vision: to deliver superior engineering solutions. The early years were challenging but crucial.

Today, Vinir Forge is an integrated (certified 'Green') Forge Shop and Machine shop having manufacturing locations at Bangalore and Hosur in India (Unit 1, Unit 2, Unit 3 and Unit 4) We are a third generation, 40-year-old, family-owned but professionally-run company with around 550 employees, catering to the needs of the Oil and Gas sector, Defense, Aerospace, Mining, Railways, General Engineering, Wind Power, Energy, Hydraulics, Earthmoving, Off-highway, Water Treatment, Transmission etc.

Unlike many of our peers, we excel in executing small volume orders, handling difficult raw material grades, and producing heavy forgings with

short lead times. Our expertise spans various forging techniques, including closed-die, open-die, ring rolling, and radial forging, both in forged and machined conditions.

### What are some of the key products / services offered by the company?

Vinir Forge (Engineering) Pvt Ltd boasts extensive capabilities in producing high-quality forgings in forged and machined condition, catering to diverse industry needs, as below:

- Closed Die Forgings upto 1400 kgs/pc in various conditions, including rough, proof machined, or fully machined.
- Open Die Forgings Upto 15,000 kgs/pc in rough, proof machined, or fully machined conditions.
- Ring Rolling Upto 4500 mm on Wagner/Banning ring rolling machines.
- Radial Forging Using GFM machines.
- Machining Facilities Equipped with advanced machining facilities upto 5 axis machining, we finish machine all forged parts to meet precise customer requirements.
- All other facilities of heat-treatment, testing etc are in-house.

Manufacturer | Exporter

### What are company's initiatives to drive sustainability practices for business operations?

Vinir Forge (Engineering) Pvt Ltd is committed to integrating sustainability into all aspects of our business operations.

Vinir Engineering holds ISO 9001 and TS 16949 quality management system certifications, ISO 14001 environmental management system certification, ISO 45001 occupational health and safety certification, ISO 50001 energy management certification, API 20 C and PED certifications, and AS 9100 D aerospace quality management system certification.

### How is the company gearing towards "Atmanirbharta"?

Vinir Forge (Engineering) Pvt Ltd proudly supports India's vision of "Atmanirbharta" (self-reliance) and is a strategic supplier to the MoD and all customers that it serves.

With a deep sense of national pride, we integrate our state-of-the-art infrastructure with strong collaboration with domestic suppliers, strengthening the supply chain with high-quality, locally sourced materials. Our initiatives are driven by a commitment to contribute significantly to the nation's self-reliance and economic growth, fostering a stronger, more resilient India.

# ABM KNOWLEDGEWARE LTD

# **Mr. Prakash B. Rane**Managing Director & Founder ABM Knowledgeware Limited

# How would you describe the journey of your company since its inception?

Since its inception in 1998, ABM Knowledgeware Ltd. has been at the forefront of E-Governance in India. Starting with a vision to revolutionize public service delivery, our quantum of citizen services delivery has grown exponentially over the years. Initially focusing on automating government processes, our focus on techno-functional depth has led us to expand our offerings significantly.

Today, we provide comprehensive end-to-end E-Governance solutions, UPYOG services, SAP services, Digital Project Management Systems, and Automated Building Plan Approval Systems. Our journey has been marked by successful partnerships with numerous government agencies, consistently enhancing transparency, efficiency, and citizen satisfaction in public administration. Our expertise is acknowledged and recognized by credible and leading industry bodies, case studies as well as National and International Media.

# What are some of the key milestones of the company in recent years?

In recent years, ABM Knowledgeware Ltd. has achieved several key milestones that underscore its leadership in E-Governance across India. A majority of our projects engaged in statewide implementation have greatly benefitted the citizens.

Some of which include SAP implementation across 400+ ULB's in Madhya Pradesh as well as across BrihanMumbai Municipal Corporation. The statewide implementation of Online Building Plan Approval System in Punjab and Himachal Pradesh enables registered architects to be eligible to grant self-permit for residential building construction. We have also launched the Farmer Producer Organization (FPO) under Small Farmers Agribusiness Consortium (SFAC) registering around 1.4 million farmers. Our role in the Versova-Bandra Sea Link project by MSRDC is showcasing the use of 5D BIM technology in Infra projects. ABM, in consortium, was also awarded the IoT Deployment contract for Jal Jeevan Mission Projects. Furthermore, 1500+ ULBs and 30+ smart cities use our services for ERP.

# What are the major developments in e-Governance space?

The major developments in e-Governance include the adoption of advanced digital technologies and the enhancement of citizencentric services. The role of digital technologies in governance is swiftly evolving, with digital integration permeating various administrative processes. It is imperative that we deal with emerging IT issues such as security, Artificial Intelligence (AI), Machine Learning (ML), and privacy to ensure safe and effective utilization of these technologies.

Thankfully, government departments are prioritizing these matters with due urgency. Several government departments are now embracing innovative approaches, including WhatsApp-based services, chatbots, and AI/ML applications. Some forward-thinking organisations have even adopted cutting-edge technologies like Blockchain, IoT-based integrations and big data analytics into various administrative processes.

In the era of Climate Change, Nuclear Energy plays a vital role in the India's energy security. Nuclear energy is the fifth-largest source of electricity for India which contributes about 3% of the total electricity generation in the country. Nuclear energy is sometimes referred to as a clean energy technology as it produces nearly zero carbon dioxide or other greenhouse gas emissions. Nuclear energy also avoids producing air pollutants that are often associated with burning fossil fuels for energy.

In India, The Department of Atomic Energy (DAE) and its constituent establishments play a pivotal role in advancing nuclear science, technology and innovation encompassing power generation, research, development, safety, security, safeguards, environmental protection, international collaborations and societal applications.

Bell O Seal Valves Pvt Ltd (BOS) has become one of the vital supplier for Department of Atomic Energy (DAE) and its constituent establishments like BARC, HWB, IGCAR, BHAVINI, NPCIL and others. Valves developed and supplied for these establishments under Atmanirbhar Bharat, has substantially reduced the forex savings to GOI. Our efforts also helped nation in becoming self-reliant and cut down the dependency of imports for these major equipment's. Some of the key projects undertaken by BOS as a part of commitment to nation is shown below.

BOS Indigenously developed the "Bellow Seal Bellow Operated Valves" in collaboration with BARC scientists, for self-reliant product during the nuclear embargo. These valves have 25000 Cycles proven on bellow cyclic life and on the seat. These are currently in use on Concentrated Nitric Acid and Highly Radioactive Nuclear Waste System.

Kakrapar Atomic Power Project (KAPP 3&4) and Rajasthan Atomic Power Project (RAPP 7&8) are the first indigenously designed and built 700 MWe Pressurised Heavy Water Reactor (PHWR). BOS worked very closely with NPCIL and supplied High Pressure Bellow Seal Three Valve Manifold and Isolation Valves. BOS has supplied valves of size DN 10 and DN 12 in 2500# rating to both the units. These valves were designed, manufactured and tested for stringent quality requirements laid down by NPCIL and has been successfully commissioned in the site.

BOS Developed Frozen Seal Gate Valve, as a part of Atmanirbhar Bharat for "Indira Gandhi Centre for Atomic research (IGCAR)". Our team with the guidance of nuclear scientists designed, developed and manufactured these special critical valves in our facility and supplied to India's most advanced nuclear reactor-Prototype Fast Breeder Reactor (PFBR). In line with the true spirit of Aatmanirbhar Bharat, PFBR has been fully designed and constructed indigenously by BHAVINI with

significant contribution from Indian industries including MSMEs. Once commissioned, India will only be the second country after Russia to have commercial operating Fast Breeder Reactor.

Supply includes Electric operated gate valves with the Electric actuator of 100NB nominal size and 200NB nominal size. These special valves are used to control High temperature sodium flow. The principal sealing towards the exterior is assured by means of solidified sodium. The solidified region where the sodium is to be frozen to form the seal will be cooled by means of air by natural convection. Circumferential fins are provided on the valve stem guide to improve the heat transfer.

Earlier these valves were imported by Department of Atomic Energy and its indigenous development by BOS has been a significant milestone in valve industry. BOS takes pride to be a part in development of these valves which has been significantly recognized in the nuclear industry and made BOS one of the most reliable valve manufacturers in India.

Based on the development of such critical products, other products like needle valves, Y-Type actuated globe valves etc. were manufactured by BOS for IGCAR. All these were manufactured first time in India in line with Atmanirbhar Bharat. BOS commitment towards such engineered products was appreciated by Department of Atomic Energy.

### G7 CR's Unified Customer Experience: Revolutionizing Tech Support

In an era where customer acquisition is fiercely competitive, the true challenge often lies in customer retention, particularly in the B2B tech space. The struggle to maintain clients despite exhaustive efforts to onboard them stems largely from inadequate tech support experiences. G7 CR Technologies – a Noventiq company, a pioneer in technology solutions, is setting a new standard with its innovative approach: the Unified Customer Experience (UCX) method.

### **THE CHALLENGES:**

Traditional tech support systems are plagued with inefficiencies.
Christopher Richard, a key figure in G7 CR's strategic planning, highlights the primary issues:

# 1. Lack of Tech Expertise and Environment Understanding:

Tech support personnel often lack either the technical knowledge or the understanding of the client's specific environment, leading to prolonged problem-solving times.

#### 2. Fragmented Support Teams:

Different teams handle various aspects of support–data, network, billing–leading to a fragmented and frustrating customer experience.

 Inefficient Inter-Department Collaboration: Tech support often requires input from billing or finance departments, causing delays due to the lack of synchronization between these departments.

### 4. Repetitive Explanations:

Customers repeatedly need to explain their environment and issues to different support personnel, wasting valuable time and increasing frustration.

# THE SOLUTION: UNIFIED CUSTOMER EXPERIENCE (UCX)

G7 CR's Unified Customer
Experience aims to transform the customer support paradigm by creating dedicated, multidisciplinary teams. These teams include tech experts, billing specialists, account managers, and customer success managers, all working under a single unit with unified goals and objectives. This structure ensures seamless communication and a holistic approach to problem-solving.

### **KEY FEATURES OF UCX:**

- Dedicated Teams: Small, fixed units of 16 people are assigned to specific customers, ensuring familiarity with the customer's environment and personalized service.
- Comprehensive Support:

Each team comprises various specialists, enabling them to handle all aspects of support—technical issues, billing queries, and account management—without bouncing the customer between departments.

- Enhanced Collaboration: By reporting to one manager and having a unified KPI focused on customer satisfaction, these teams can effectively collaborate to resolve issues promptly.
- Improved Customer Relationship:
  Continuous interaction with the
  same team members fosters
  a stronger, more personal
  relationship, enhancing the
  overall support experience.

#### THE IMPACT

This revolutionary approach promises to elevate the customer support experience significantly. By addressing the root causes of customer frustration and providing a cohesive support structure, G7 CR aims to not only retain clients but also turn tech support into a positive, seamless experience.

G7 CR's Unified Customer
Experience is set to redefine tech
support, making it more efficient,
personalized, and customer centric.
As organizations increasingly
recognize the importance of
excellent post-sale support, methods
like UCE will become essential
in maintaining long-term client
relationships and driving business
success.

For more information on G7 CR's Unified Customer Experience and how it can benefit your organization, please visit G7 CR's official website.

# KAVIN ENGINEERING AND SERVICES PRIVATE LIMITED

KAVIN is a global leader in Engineering Design and Project Management Consultancy Services for the Energy Industry. With over two decades of global experience, we redefine industry standards from our headquarters in Coimbatore, India, and offices strategically located in Abu Dhabi, Ras Al-Khaimah, Singapore, Malaysia, and Nigeria.

Our solutions reflect our commitment to the highest industry standards, dedication to quality, environmental responsibility, occupational health & safety, minimizing expenses while delivering top notch engineering solutions for greenfield and brownfield project requirements.

With a global presence, we collaborate seamlessly on projects worldwide, offering clients a comprehensive experience regardless of location. At KAVIN, we bring engineering expertise, innovation, and reliability to every endeavour.

Our hallmark is client-centric excellence, delivering tailored, cost-effective solutions that consistently exceed expectations. Our seasoned

professionals ensure success in every project, regardless of scale or complexity.

Choose KAVIN as your trusted partner for forward-thinking engineering, flawless project management, and unwavering commitment to excellence. Together, we will navigate the complexities of every project and turn your vision into reality.

### KAVIN ENGINEERING AND SERVICES PRIVATE LIMITED

Incepted in 1996, SIRO embarked on a mission to redefine drug development and discovery solutions. Today, it stands tall as one of the most experienced clinical research service providers, offering an innovative bouquet of CRO services. Here's a snapshot of SIRO's remarkable journey:

### 27 years of Experience:

A testament to their unwavering commitment to excellence.

### ~200 Dedicated Employees:

The heart and soul of their operations, driving innovation.

### 296 Trials Conducted:

A rich tapestry of research contributing to medical advancments.

### **20 Therapeutic Areas Covered:**

Addressing diverse healthcare needs.

# 10,000+ Medical Writing Documents Submitted:

Meticulous attention to detail and communication.

#### 97 Audits Cleared:

A reflection of their steadfast commitment to quality.

But what truly sets SIRO apart is its client-centric approach. SIRO is a versatile service provider, offering services across various business models, including Full service, FSP and Standalone/Individual project outsourcing. SIRO has been a trailblazer in exploring alternative geographies for clinical trials, expanding possibilities for research.

### Service Offerings encompass a wide spectrum, all compliant with ICH-GCP standards:

- Clinical Project Management and Planning
- Clinical Data Management and Biometrics
- Clinical Monitoring
- Medical Services (Medical Monitoring and Drug Safety)
- Feasibility Services
- Clinical Quality Assurance and Compliance Auditing

- Clinical Trial Supplies (CTS) Management
- Regulatory Liaison and Consulting
- Extensive Medical Writing Services
- Comprehensive Medical Communications
- SIRO's commitment to excellence extends to off-shore Full service/FSP models.

### Ven Consulting India Pvt Ltd

**Resource Augmentation Success Partner** 

Since its founding in 2010. Ven Consulting India has established itself as a leader in engineering resource deployment. The company has built a reputation for excellence, delivering top-tier solutions and successfully deploying over engineers to diverse and challenging project locations. Ven India's unwavering commitment to quality and value-driven services has been instrumental in the successful completion of nearly 900 projects, serving more than 200 esteemed clients.

Ven Consulting India's areas of expertise Design, Planning, Operations, Maintenance, Safety, and Quality.

The sectors they serve encompass Defence & Aerospace, Iron & Steel, Renewable Energy, Mining, Oil & Gas, Automotive, Construction & Metro, Steel Industry, IBMS, and Transmission & Distribution.

#### The Ven Advantage

Ven Consulting stands out with a unique blend of strengths:

- · Cost Efficiency: Delivering high-quality solutions without compromising on budget.
- Technical Expertise: A team of skilled engineers with multi-domain knowledge tackling complex challenges innovatively.
- High Retention Rate: A positive work environment attracts and retains top talent, ensuring project stability.
- End-to-End Solutions: Comprehensive project lifecycle services, from design to maintenance.
- Quality Talent Pool: Access to 90 lakh candidates.
- Fast Turnaround: Efficient and timely delivery of results.
- Geographic Reach: Serving clients across India and the Middle East.
- **Customer-Centric:** Focused understanding and fulfilling client needs, fostering lasting partnerships.

#### **Connecting People to Projects: On Demand!**

#### Visionary Leadership

At the helm of Ven Consulting are two dynamic leaders:

#### Sanjay G Lingadalli - Founder and **Managing Director**

Sanjay, founder and Managing Director of Ven Consulting India Pvt Ltd. directs strategic growth and fosters a client-first culture. With 20+ years of experience, he drives strategy, revenue growth, market expansion, and strategic partnerships.

#### Sucheta Gour - Whole-Time Director

As Whole-Time Director, Sucheta Gour leads Ven Consulting's growth strategies, building an agile delivery framework and enhancing employee experience. Her operational insight and focus on customer needs drive the company's innovation and success.

#### Transforming India's Landscape: Landmark **Projects**

Ven Consulting has significantly impacted India's infrastructure and energy landscape with an impressive project portfolio:

- · Giga Factory, Krishnagiri: State-of-the-art manufacturing facility highlighting project management expertise.
- Saubhagya Rural Electrification: Brought electricity to numerous rural households, improving quality of life.
- Statue of Unity: Contributed engineering prowess to the world's tallest statue.
- Data Centers, Chennai & Hyderabad: Established advanced facilities with toptier security and efficiency.
- Transmission & Distribution, Enhanced power infrastructure for reliable electricity in the region.
- Solar and Wind Energy: Developed 4 GW of large-scale renewable energy projects.
- Offshore Rigs, Saudi & Onshore Rigs, India: Showcased expertise in oil and gas sector projects.
- Central Steel & Cement Plant: Delivered engineering solutions for a large-scale manufacturing plant.

#### A Commitment to the Future

Ven Consulting India Pvt Ltd remains dedicated to building long-lasting client relationships by consistently delivering exceptional service. The company's highly skilled and experienced professionals are committed to driving success through innovation, integrity, and a relentless pursuit of excellence. As India continues to evolve and grow, Ven Consulting is poised to play an even more significant role in shaping its future through transformative project solutions and unwavering commitment to client success.

#### **Shachindra Nath**

Founder and Managing Director U GRO Capital Limited

In the fiscal year 2023-24, UGRO Capital has continued to make significant strides in advancing its mission of supporting and empowering Micro, Small, and Medium Enterprises (MSMEs) across India. According to the Social Impact Report 2023-24, the Company has touched the lives of thousands of entrepreneurs, enabling them to realize their dreams. and contribute to the nation's economic growth. A BSE and NSE-listed company, UGRO Capital's commitment to the MSME sector is embodied in the simple mindset that it tries to propagate throughout the ecosystem - MSME Accha Hai.

Harnessing the power of data and technology in novel ways to redefine financial services has led the Company to an evolved state - a DataTech NBFC. In FY24, UGRO Capital crossed a significant milestone by entering the Billion-Dollar AUM Club. This achievement is a testament to its robust business model and unwavering commitment to the

MSME sector. The Company stands as India's trailblazing data-driven underwriting platform, transforming the MSME credit landscape. By leveraging GST data, banking information, and repayment behaviour from credit bureaus, it has serviced over 80,000 customers across the country as of March'24.

FY24 also closed on a very high note, with UGRO's achievement of a trifecta. Not only did the Company have very successful Q4 results, but it also raised an equity capital of INR 1,265 Crores through Compulsory Convertible Debentures (CCD) and Warrants. Additionally, the Company acquired 'MyShubhLife' (MSL), a prominent Embedded Finance Fintech platform headquartered in Bengaluru. Scaling up **Embedded Finance requires** deep understanding and penetration of payments players ecosystem and a cutting-edge data & technology stack. MSL has a proven track record on both counts, and it fits well with UGRO's strategy.

Looking ahead, UGRO Capital is poised to turn a new leaf -UGRO 3.0. This new phase is characterized by a renewed focus on Rigour, Speed, and Agility. The goal is to redefine financial services for MSMEs by adopting a holistic approach to customer needs. Under UGRO 3.0, we are expanding our product offerings across all micro and prime locations, ensuring that every customer has access to a comprehensive suite of financial solutions, embodying the ethos of "One Customer, All Products.". This includes its ventures into new categories such as rooftop solar finance, reflecting the Company's commitment to sustainable and green finance.

As it embraces this new avatar, UGRO Capital stands well-positioned to unlock new growth opportunities and create substantial value for all its shareholders, customers, and the overall MSME ecosystem.

# INDIAN SME SECTOR OVERVIEW

# INDIAN SME SECTOR OVERVIEW

ndian economy has made remarkable progress on several fronts since independence and has now emerged as one of the fastest growing economies of the world. The economy is poised to continue this path, with aspirations to become a completely developed nation or 'Viksit Bharat' by 2047. The vision of 'Viksit Bharat' represents complete blueprint for the country's prosperity and is focused on economic strength, Atmanirbharta (Selfreliant) effective governance,

social progress, environmental sustainability, innovation, and global champions.

Micro, Small, and Medium Enterprises (MSMEs), a highly vibrant and dynamic sector of the Indian economy is indeed one of the key pillars of Viksit Bharat. Its vast presence with significant contribution to output, employment, and exports, enable MSMEs play a crucial role in India's transformation into a completely developed nation.

## INDIAN MSMES - CURRENT STATUS

As of end of June 2024, there were 46.3 mn registered MSMEs (Udyam + informal micro enterprises on Udyam Assist Platform), with sector being dominated by large number of micro enterprises. With majority of enterprises being micro, the sector has been largely unorganised. However, in January 2023, The Ministry for Micro, Small and Medium Enterprises in association with Small Industries Development

Bank of India (SIDBI) has launched Udyam Assist Platform (UAP), bringing informal micro enterprises in the formal ambit. As of end of June 2024, out of total registered MSMEs, 19.3 mn are registered on UAP.

Out of 26.9 mn MSMEs registered on Udyam, about 74%

are engaged in service activity, while remaining are engaged in manufacturing.

Micro enterprises dominate MSME sector			
	Micro	Small	Medium
Number of Enterprises on Udyam (in '000)	45,477.6	707.6	67.4
% to total	98.3	1.6	0.1

Source: Udyam Dashboard

Maharashtra, Tamil Nadu, Uttar Pradesh, Rajasthan, and Gujarat are amongst the top 5 states in terms of Udyam registrations, collectively accounting for 50.2% of total Udyam registrations.

#### Maharashtra leads in MSME registration

With its large presence, MSMEs have played a crucial role in the

socio-economic upliftment of the country. Moreover, the sector has nurtured entrepreneurship and helped growth percolate down to the last man.

#### Contribution of MSMEs to Indian Economy

\* Data as of 2021-22 # Data as of 2022-23 \$ Data as of June 11, 2024 Source: Ministry of Micro, Small, and Medium Enterprises and Udyam Portal

## UDYAMI BHARAT FOR VIKSIT BHARAT

Unlocking the potential of manufacturing and services sectors is essential to transform India into a developed nation by the year 2047. In this journey, MSMEs which account for nearly one-third of India's economy, are bound to play a vital role. Hence, strengthening the MSME sector is to be prioritised for developing Udyami Bharat (enterprising India) in order to achieve the ultimate vision of 'Viksit Bharat.'

The ambitious Udyami Bharat programme stands on four strong pillars namely Entrepreneurship, Prosperity, Modernisation, and Self-reliance. These four pillars are rightly aligned with India's key economic priorities during its Amrit Kaal for achieving robust, more resilient, and inclusive economic growth. Success in achieving these priority areas largely hinges on the strength of MSME sector.

#### MSMES' CONTRIBUTION TO FOUR PILLARS OF UDYAMI BHARAT

**ENTREPRENEURSHIP** 

India is a young country with more than 50% of its population

being below the age of 25 years. India's demographic dividend in terms of youth population can play a critical role in achieving the nation's ambitious target to become a US\$ 5 trillion economy. However, to achieve this, youth population needs to be educated, adequately skilled and productively employed. In this regard, MSMEs which are known for nurturing entrepreneurship in India, play a crucial role.

Moreover, MSMEs are accredited for empowering women and other weaker sections of the society. As per Udyam registration portal, women owned MSMEs constitute 20.5% of total number of

MSMEs. These women-owned MSMEs' contribution to the employment generation by the Udyam registered MSME units is 18.7%, while their contribution to total turnover of Udyam registered MSME units is 10.22%. Alike women, young MSME entrepreneurs in India are rising and hold immense significance in nation building.

In recent years, Indian MSME entrepreneurial landscape has been revolutionized by substantial policy interventions from the government. Measures like special drives for registration of women-owned MSMEs, 10% concession in annual quarantee fee & 10% additional guarantee coverage of up to 85% under Credit Guarantee Scheme for women entrepreneurs as well as initiating 'SAMARTH' scheme to provide skill development and market development assistance are providing much needed impetus to women-owned MSMEs. Besides, PM Mudra Yojana, Stand-Up and Start-Up India schemes are fostering entrepreneurial spirit amongst youths. The government also acknowledged the significance of MSMEs in upliftment of socially weaker sections and has initiated SC/ST Hubs that support existing SC/ST entrepreneurs in technology upgradation and capacity building. These initiatives have been helping to promote entrepreneurship, enhance Ease of Doing Business, and strengthening resilience of MSME ventures.

#### **PROSPERITY**

MSMEs with their vast presence and huge potential for employment generation play a vital role in sustaining economic growth. Moreover, MSMEs' wellestablished manufacturing base along with diversified product range can take advantage of changing global economic landscape as well as "China Plus One" strategy and evolve themselves as global champions. MSMEs that are well positioned in the global value chain can be a formidable force and can contribute in India's economic prosperity.

However, to develop the thriving ecosystem of MSMEs, close attention must be paid in facilitating access to finance and growth strategies. Recognising this, the government has launched various policy measures like structured loan schemes and subsidy schemes, public procurement policy, promoting supply chain financing through Trade Receivables electronic Discounting System (TReDS) & FinTech platforms as well as measures to promote marketing and export of MSME products.

#### **MODERNIZATION**

Focus on innovation and adoption of emerging digital technologies have helped in changing the MSME landscape in India. The sector that was known for the manufacturing of simple goods in an unorganized manner, has now moved up the value chain and has been manufacturing sophisticated products with the help of technology. Increasing number of MSMEs have been adopting innovative approach in various areas like business processes, product/ service development, technology, and to compete with large enterprises globally.

As innovation becomes essential for strengthening the MSME ecosystem, the government has come up with MSME Innovative Scheme through combination of incubation, design intervention, and Intellectual Property Rights (IPR) initiatives. Besides, tool rooms and technical institutions are providing skilled manpower in tooling and upgradation of technologies/products in sectors like foundry & forging, electronics, electrical measuring instruments, glass, and sports goods, etc. Tool rooms also contributed in supplying 437 types of precision components for India's Chandrayaan-3 mission.

#### **SELF-RELIANCE**

With MSMEs being the backbone of Indian economy, they can contribute significantly in achieving the nation's goal of self-reliance during 'Amrit Kaal'. They play an important role in reducing the country's dependency on imports, as well as building a robust and sustainable industrial base. The localised production by MSMEs not only fulfil the domestic demand but also help curb India's dependency on foreign products, in turn improving its resilience against external supplyside shocks. Their engagement in supply chain support both upstream and downstream activities, thereby reducing the need to rely on foreign suppliers. This independence within the country's supply chain helps in building the robust and sustainable industrial base that ultimately contribute to achieving the vision of Self-reliant India.

To empower the MSMEs to achieve the goal of Self-reliant India, various policy initiatives have been undertaken to facilitate access to finance, ensure the supply of skilled manpower and support for entering global supply chains. Moreover, as a part of Atmanirbhar Bharat package, equity infusion of ₹ 500

bn was announced for MSMEs through Self Reliant India (SRI) Fund in 2021. Since its inception, total equity infusion under the SRI Fund for MSMEs amounted to ₹ 48.85 bn.

## CHALLENGES FACED BY INDIAN MSMES

#### **FINANCIAL CONSTRAINTS**

Access to low-cost credit is one of the key necessities for an enterprise of any scale. Access to finance to MSMEs has always been a key impediment in the growth of the sector. Informal micro enterprises as well as MSMEs owned by women entrepreneurs have particularly faced this challenge, leading them to seek credit through informal channels that are often non-reliable and incur high interest rates. The government has launched various schemes to facilitate the availability of credit to MSMEs. However, it has been noted that informal micro and women enterprises are not completely equipped to take benefit of these schemes due to lack of awareness, inability to furnish required documents & provide collateral securities. This restricts MSMEs from raising adequate capital to sustain their operations and attain further growth.

#### **TECHNOLOGICAL LIMITATIONS**

Technology is increasingly seen as a business enabler and vital tool for bringing in process efficiencies. For MSMEs to develop a competitive advantage to operate in the global market, a strong focus on adopting new technologies as well as fostering innovation is required. Although MSMEs have acknowledged technology as a key business driver, its adoption is still low, as compared to their large counterparts. This can largely be attributed to lack of understanding of business benefits that technology can deliver, lack of guidance on integration of technology in their businesses, resistance to incur upfront costs to adopt technology, and lack of skilled manpower.

#### **REGULATORY BURDEN**

It is well established that high regulatory burden can stunt growth of MSMEs and force them to stay small and informal. Large number of compliances related to labor, finance, taxation, environment, health & safety which include a variety of licences, registrations, permissions, and periodic returns amongst others require significant amount of time and money to ensure compliance. Moreover, small enterprises often lack the capacity and resources to meet various compliance requirements. However, this can be mitigated by the adoption of digital technologies in compliance management. Digital technology can be utilised to track and manage compliance requirements, preparing customised checklists, creating automated alerts and reminders, and preparing periodic analytics.

#### **MARKET ACCESS**

Market access can be considered as a diving line between stagnation and growth. While the Indian MSME sector contributes nearly 43% to India's exports, gaining market access is seldom straightforward for most of the MSMEs. However, they can access bigger markets through value chain integration, strategic partnership, leveraging technology, quality assurance and marketing & branding and embracing e-commerce. In fact, it is being noted that integration with e-commerce platforms not only enable MSMEs to improve

their access to the market but also access to finance.

## SKILLED WORKFORCE SHORTAGE

MSMEs often find shortage of skilled manpower given the absence of proper skill training and development initiatives. As per Dun & Bradstreet's analysis, India needs to create 231 million jobs over the next 25 years to support its growing population, redress historical inequalities in its women labor force participation, and transition a part of the workforce from the agriculture to the non-agriculture sector. Most of this incremental skilled manpower is estimated to be required in sectors like textiles & clothing, building & construction industry, auto & auto components, and real estate services. Recognising the need for skill training, the government has developed tool rooms and technology centres which have imparted skill training to almost 3,07,583 persons in CY2023. Besides, Entrepreneurship Skill Development Programme (ESDP) has been launched which has benefited 84,716 persons during CY2023.

#### **VULNERABILITY TO SHOCKS**

The COVID-19 pandemic that exposed vulnerability of the MSMEs to external shocks, has also imparted critical lessons for Indian MSMEs. The sector was one of the worst hits during the pandemic on account of demand-supply shocks. While the government extended its support, the sector had to struggle to survive and recover from the pandemic-induced shocks. This underlines the need to enhance resilience and agility of MSMEs to survive such shocks in future. A comprehensive framework including conducive policy environment, digitalisation, industry collaboration and alternative financing can help MSMEs to withstand the future crises.

#### **LACK OF AWARENESS**

One of the biggest challenges faced by Indian MSMEs especially informal micro enterprises is lack of awareness about various government schemes, regulations, technology, and credit opportunities. The lack of awareness about various compliances and regulations can indeed expose MSMEs to legal and financial risks. Moreover, lack of awareness about various government schemes that support MSMEs as well as credit schemes can cost MSMEs in terms of growth and profitability.

#### **GROWTH DRIVERS**

#### **GOVERNMENT INITIATIVES**

Over the years, MSMEs have evolved as a critical component of India's economic fabric. Acknowledging this, the government has initiated various policy measures to boost growth of MSMEs. Interventions like the PM Gatishakti National Master Plan that aims to enhance multi-modal connectivity and logistics is expected to benefit MSMEs through reduced logistic costs. Besides, Atmanirbhar Bharat Abhiyan introduced in 2020 is envisioned to revive the MSME sector with financial support mechanisms such as collateral-free loans and funds for capacity augmentation. Various such measures taken by the government are expected to enhance competitiveness of MSMEs. It will also promote sustainability and innovation in the long-term.

#### **DIGITALISATION**

Indian MSME sector has witnessed acceleration in digitalisation after the pandemic. The disruption in business activity as an immediate impact of the pandemic-induced restrictions has resulted in forced adoption of digital technologies by enterprises. However, the tech adoption has persisted beyond the pandemic as it has helped in empowering the MSMEs to become more resilient, agile, and efficient. Digital technologies that automate various tasks and streamlines processes can lead to more cost saving. Further, it can help the business to improve customer experience, in turn resulting into increased sales. Thus, it can offer a range of benefits to the MSMEs and help them gain competitive advantage over their peers.

#### **INNOVATION**

Innovation that involves developing new ideas, products, processes, and business models plays a critical role in the transformation of MSMEs. It helps MSMEs to capitalise on opportunities that arise around them and also help withstand and limit the adverse impact caused by the external shocks. The government of India has launched various schemes that foster innovative spirit of Indian MSMEs.

#### **SKILLING**

Skilled manpower is a necessity for MSMEs' survival in the current volatile economic environment. Ongoing training and upskilling of manpower enhances the productivity and make MSMEs future ready.

#### **ACCESS TO FINANCE**

Access to adequate and timely credit at competitive interest rates is a major growth driver for MSMEs. Recognising the government has introduced various schemes to bridge the financing gap to a certain extend. Besides, in recent years, the emergence of FinTech has also facilitated hassle-free financing to the MSMEs. This has helped in improving the flow of working capital to MSMEs, thereby making them more resilient.

#### **ACCESS TO GLOBAL MARKETS**

#### **WOMEN ENTREPRENEURS**

#### **SUSTAINABILITY**

Access to global markets can be seen as a cure to dwarfism of Indian MSMEs. Access to global markets can help MSMEs in expanding their target audience, relieve themselves from local competitiveness stress, and provide opportunity to connect and collaborate with international partners. Moreover, market diversification substantially reduces demand-side risk. Going forward, access to global markets is critical for MSMEs to scale sustainably.

India has already surpassed China as the world's most populus country with strong demographic dividend. However, a major obstacle in realising this demographic dividend is the insufficient representation of women in India's workforce. The same is true in case of MSME enterprises led by women. Only one in five enterprises are owned by women. However, various government initiatives towards supporting women entrepreneurs, spread of education and positive societal transformations are expected to result in the rise of women in entrepreneurial roles.

The vision of Viksit Bharat emphasises sustainable development with commitment towards reducing emissions intensity and reaching net zero by 2070. Indian MSMEs that are increasingly adopting to the ecofriendly practices are expected to play a vital role in this endeavour. In fact, going forward, adoption of technology that ensure resource optimisation and reduced waste generation will be key component of sustainable growth strategies for MSMEs.

#### **KEY POLICY INITIATIVES TO SUPPORT MSMES**

The key government initiatives to support MSMEs are as given below.

Policy Initiative	Objective	Achievements
PM Vishwakarma with initial outlay of ₹ 130 bn for initial period of five years i.e., during FY24 to FY28	To improve the quality and the reach of products and services of artisans and craftspeople and to integrate them in the domestic and global value chains	As on December 30, 2023:  - A total of 4.8 mn enrolments made.  - A total of 0.1 mn applications registered successfully
Prime Minister's Employment Generation Programme (PMEGP) - credit linked subsidy scheme  - Margin Money (subsidy) provided to beneficiaries availing loan from banks for setting up new enterprises The maximum project cost for setting up of new project is ₹ 5 mn in manufacturing sector and ₹ 2 mn in Service Sector Subsidy of 25% and 35% of project cost for Special Categories - Subsidy of 15% and 25% of project cost for General Category applicants for urban and rural areas respectively.	To provide employment opportunities through establishment of micro-enterprises in the non-farm sector	Since its inception in 2008 and till November 30, 2023, more than 0.9 mn micro-enterprises have been assisted across the country with disbursement of Margin Money subsidy of ₹ 345.17 bn, generating a total estimated employment for around 7.8 mn persons.
Credit Guarantee Scheme introduced in 2000 and revamped in 2023 with following features being added to it. i. Enhancement of ceiling limit of Guarantee coverage from ₹ 20 mn to ₹ 50 mn; ii. The Annual Guarantee fees reduced from 0.75% to 0.37%. iii. Increase in the threshold limit from ₹ 0.5 mn to ₹ 1 mn for waiver of legal action.	To facilitate credit access	For the period from January 2023 to November 2023, a total of 1.2 mn guarantees were approved, amounting to ₹ 1.46 trillion.
Self-Reliant India (SRI) Fund	To provide growth capital to the deserving and eligible units of MSME Sector	From January 1, 2023, to November 30, 2023, 14 daughter funds have been empanelled with NSIC Venture Capital Fund Limited (NVCFL) - a Mother Fund, by way of investing more than ₹ 36.58 bn, thus assisting 242 potential MSEs.

Policy Initiative	Objective	Achievements
Micro and Small Enterprises Cluster Development Programme (MSE- CDP) launched in 2003	To enhance the productivity and competitiveness of Micro and Small Enterprises (MSEs) by extending financial assistance for establishment of 'Common Facility Centers (CFCs)' and creation and upgradation of industrial estates.	Since inception of the scheme, a total of 580 projects have been approved and out of these, 308 projects have been completed.  Out of the 580 approved projects, 40 projects, with a total project cost of nearly ₹ 5.60 bn, with Government of India's assistance of ₹ 3.86 bn were approved during CY2023.
Scheme of Fund for Regeneration of Traditional Industries (SFURTI) launched in FY06 and revamped in FY15	To organise the artisans and traditional industries into clusters for better competitiveness, for enhancing employment opportunities and to increase marketability of products of such clusters.	A total of 513 clusters have been approved and out of this, 389 clusters have become functional.  During CY2023, 89 clusters have become functional providing benefit to 50,166 artisans in 25 States. 15 clusters have been approved with a total Government of India assistance of ₹ 400.1 mn directly benefitting 8,875 artisans.
A Scheme for Promoting Innovation, Rural Industry & Entrepreneurship (ASPIRE)  There are 2 components under ASPIRE - Livelihood Business Incubator (LBIs) and ASPIRE Fund of Funds (FoF)	To create employment opportunities in the agro-rural sector	During CY2023, four new LBIs were approved under ASPIRE and 25,468 beneficiaries were trained, out of which 1,458 were wage employed. Additionally, 225 micro-enterprises were established via the incubation programs conducted in the LBIs. During CY2023, under FoF, 5 new Alternative Investment Funds (AIFs), were supported with a commitment of ₹ 1.45 bn taking the total commitment to ₹ 2.17 bn to 11 AIFs, out of the total corpus of ₹ 3.1 bn.
Raising and Accelerating MSME Performance Programme (RAMP)	To strengthen institutions and governance at the Centre and State, improving Centre-State linkages and partnerships and improving access of MSMEs to market and credit, technology upgradation and addressing the issues of delayed payments and greening of MSMEs.	Strategic Investment Plans (SIPs) of 10 States viz. Tamil Nadu, Odisha, Sikkim, Maharashtra, Uttar Pradesh, Madhya Pradesh, Mizoram, Andhra Pradesh, Bihar, and Karnataka have been approved with a total outlay of ₹ 11.43 bn.

Source: Ministry of Micro, Small and Medium Enterprises Year End Review

#### THE WAY AHEAD

There can be no denial to the fact that the vision of 'Udyami Bharat' will be achieved mainly by empowering MSMEs. In view of the heights that Indian economy aims to attain by its centenary year of independence, MSME will require to be more vibrant and dynamic. Recognising this, the government has taken various policy decisions to help MSMEs scale themselves to the next level. In this journey, apart

from the persistent government support, focus on fostering innovation, adopting digital technologies, and integrating in the global value chains can help MSMEs emerge stronger in the changing dynamics of the business environment.

MSMEs need to leverage upon new opportunities arising around them and scale up their operations. This will not only help boost the growth of Indian MSMEs but also enhance their competitiveness in domestic as well as international markets.

With India poised to become a US\$ 5 trillion economy early in the Amrit Kaal, the vision of Udyami Bharat holds utmost significance. In this scenario, MSMEs which are backbone of Indian manufacturing sector, have to maintain an appreciable growth rate, to set the economy on a sustainably high growth trajectory.

239	Zoom Enterprises Limited	West Bengal

Dun & Bradstreet India has been tracking the Indian economy for more than two decades. Through our knowledge platforms and publications, we place the success stories of Indian Companies on a global platform. Our platforms are designed to help you position your brand in front of potential customers, investors, suppliers, government bodies, regulators and other stakeholders. We also provide a suite of professional training, educational courses and innovative knowledge forums & conferences.

## LIST OF INDIA'S LEADING SMEs 2024 -MANUFACTURING SECTOR

Sr No	Company Name	State / Union Territory
1	20 Microns Nano Minerals Limited	Gujarat
2	3Q Printing Technologies Private Limited	Maharashtra
3	A&C Braid & Rope Company Private Limited	Uttar Pradesh
4	A&L Apparels Private Limited	Maharashtra
5	A&T Stationers Private Limited	Haryana
6	A.B. Polypacks Private Limited	West Bengal
7	A.B.M Wood- Decor Private Limited	Gujarat
8	A.C. Polycoaters Private Limited	Delhi
9	Aadhar Equipments Private Limited	Gujarat
10	Aakash Food Products Private Limited	West Bengal
11	Aakash Universal Limited	Maharashtra
12	Aakriti Sugar Mills Private Limited	Madhya Pradesh
13	Aamorb Pharmaceuticals Private Limited	Madhya Pradesh
14	Aanjana Metal Concepts Private Limited	Maharashtra
15	AAPL Solutions Private Limited	Maharashtra
16	Aaram Plastics Private Limited	Rajasthan
17	Aarav Casings Private Limited	West Bengal
18	AARAV Fragrances & Flavors Private Limited	Maharashtra
19	Aarohi Embedded Systems Private Limited	Gujarat
20	Aarohie Nutrifood Private Limited	Chhattisgarh
21	Aaron Industries Limited	Gujarat
22	Aartech Solonics Limited	Madhya Pradesh
23	Aarya Metallurgicals (India) Private Limited	Chhattisgarh
24	Aastha Fashions Private Limited	Gujarat
25	Aastha Spintex Private Limited	Gujarat
26	Aatash Norcontrol Limited	Gujarat
27	AB Carter India Private Limited	Karnataka
28	AB Tools Private Limited	Himachal Pradesh
29	Abacus Peripherals Private Limited	Maharashtra
30	ABC Impex Private Limited	Rajasthan
31	Abha Power & Steel Private Limited	Chhattisgarh
32	Abhinandan Snacks Private Limited	Maharashtra
33	Abrasive Engineers Private Limited	Delhi
34	ABS Toughened Glasses Private Limited	Haryana
35	Acceltree Software Private Limited	Maharashtra

Sr No	Company Name	State / Union Territory
36	Accent Microcell Limited	Gujarat
37	Accolade Electronics Private Limited	Maharashtra
38	Accord Laser Machining Private Limited	Karnataka
39	Accord Power Conversion Private Limited	Telangana
40	Accrete Electromech Private Limited	Maharashtra
41	Accropoly Metal Industries Private Limited	Jharkhand
42	Accupak Private Limited	Karnataka
43	Accura Moulds & Dies (India) Private Limited	Maharashtra
44	Accure Labs Private Limited	Uttar Pradesh
45	Ace Furnaces Private Limited	Maharashtra
46	Ace Hardware Private Limited	Uttar Pradesh
47	Ace Hygiene Products Private Limited	Maharashtra
48	Ace Industries (India) Private Limited	Maharashtra
49	Ace Multi Axes Systems Limited	Karnataka
50	ACE Polybond Private Limited	Maharashtra
51	Acey Engineering Private Limited	Gujarat
52	Acknit Industries Limited	West Bengal
53	A-Class Marble India Private Limited	Rajasthan
54	Acme Engineering Products & Systems (India) Private Limited	Maharashtra
55	Acme Safety Wears Limited	West Bengal
56	Acme Universal Safezone 9 Private Limited	Maharashtra
57	ACMEFIL Engineering Systems Private Limited	Gujarat
58	Acrynova Industries Private Limited	Maharashtra
59	Active Chromewell Exhaust Private Limited	Maharashtra
60	Active Clothing Company Limited	Punjab
61	Adam Fabriwerk Private Limited	Maharashtra
62	Adani Wind Energy (Gujarat) Private Limited	Gujarat
63	Adarsh Synthetics Private Limited	Rajasthan
64	Adarsha Specialty Chemicals Private Limited	Karnataka
65	Add-Shop E-Retail Limited	Gujarat
66	ADI Artech Transducers Private Limited	Gujarat
67	Adil Textiles Private Limited	Tamil Nadu
68	Adisoft Technologies Private Limited	Maharashtra
69	Aditi Foods (India) Private Limited	Maharashtra
70	Aditi Pharmaceuticals Private Limited	Maharashtra

### **METHODOLOGY**

'Leading SMEs of India 2024' is a Dun & Bradstreet initiative that recognizes and honors India's leading small and medium enterprises (SMEs). This edition of the publication provides listing of 5,800+ SME companies across multiple industry segments to acknowledge and highlight their major achievements. Apart from this, Dun & Bradstreet also felicitated leading SMEs across industry and theme awards - Business Excellence Awards 2024.

#### **Eligibility Criteria**

SMEs are defined as companies with FY23 standalone annual turnover between INR 5 Crore - 250 Crore. The companies that are purely into trading activity are not eligible.

#### **Shortlisting Process**

- Dun & Bradstreet has reached out to SMEs across the country through multiple channels such as email campaign, online medium, industry associations and councils, Dun & Bradstreet's internal database, etc.
- Dun & Bradstreet has also used the financial information available on secondary sources such as Ministry of Corporate Affairs, exchange websites, and other reliable Government websites.
- Through this process, we have sought financial details of SMEs for FY23, FY22, and FY21 through annual reports, audited statements, etc. In addition to the financial information, companies were requested to

- provide qualitative information in the form of presentations, certifications, client testimonials and other documents to 'Make their Own Case' for excellence.
- Dun & Bradstreet used a proprietary model (employing a combination of quantitative and qualitative parameters) to analyze various details available and have 'listed' leading SMEs of India, together with analysis of companies for 'business excellence awards' for industry & theme-based categories.

#### **Selection of Business Excellence Award Winners**

The shortlisted companies were duly evaluated by an eminent panel of industry and experts at a jury meeting. The final award winners were selected by the jury panel on the basis of multiple factors including quantitative and qualitative and were agreed upon by mutual consensus.

This publication and the awards are tributes to the SME sector acknowledging the resilient performance in today's volatile economic environment. This, we believe, will encourage other emerging SMEs to showcase their contribution through their active participation in our future editions. We would be pleased to receive your invaluable feedback and suggestions, which we can incorporate in the next edition.

#### **DEFINITIONS & CALCULATIONS**

#### **DEFINITIONS**

**Branded Content:** The information and views published under Branded Content have been curated by organization featured in the article. The facts and opinions expressed here do not reflect the views of Dun & Bradstreet

**Expert's View:** The facts, views and opinions expressed in the interviews are those of the contributors and the organization they represent. Dun & Bradstreet has not verified the veracity of the statements made therein
